

Women Deliver is a global advocacy organization bringing together voices from around the world to call for action to improve the health and well-being of girls and women.

Our groundbreaking global conferences in 2007, 2010, and 2013 put a spotlight on maternal and reproductive health, drawing thousands of attendees from the public and private sectors worldwide.

Our 2016 conference in Copenhagen, Denmark will be the largest global conference on girls' and women's health and empowerment of the decade. We invite you to be among the changemakers who are fighting to ensure development matters most for girls and women.

Visit our [conference website](#) for more details.
