**PATH Press Conference:
Media Availability, Expert Presentations, and Special Announcement**

Innovation matters, for her: PATH empowers women and girls to take charge of their health through innovative solutions that support gender equity, economic opportunity, and fundamental human rights. The press conference will feature short presentations by PATH experts on a range of innovative health solutions with the potential to transform health at critical stages of a woman's life—from improving sexual and reproductive health to preventing and treating women's cancers. The press conference will conclude with a special announcement about a new nutrition innovation in collaboration with two of our partners, Laerdal Global Health and the University of Washington School of Dentistry.

About PATH

PATH is the leader in global health innovation. An international nonprofit organization, PATH saves lives and improves health, especially among women and children. PATH accelerates innovation across five platforms—vaccines, drugs, diagnostics, devices, and system and service innovations—that harness our entrepreneurial insight, scientific and public health expertise, and passion for health equity. By mobilizing partners around the world, PATH takes innovation to scale, working alongside countries primarily in Africa and Asia to tackle their greatest health needs. With these key partners, PATH delivers measurable results that disrupt the cycle of poor health. Learn more at www.path.org.
